

Birds of Prey's Breakfast Sandwich

In order to make Harley's sandwich at home, only six ingredients are necessary. Two eggs serve as the main ingredient, but in order to recreate the *Birds of Prey* version, you would need a [few slabs of thick bacon](#), two [slices of yellow American cheese](#), hot sauce, melted butter, and [ciabatta bread](#) (or some kind of Italian bread). Now some of those ingredients could be subbed out, such as the breakfast meat, type of cheese, or what holds the deliciousness all together.

Just as Sal did in the movie, crack the two eggs over a hot pan or stovetop. Instead of watching in awe as Harley did, fry up the bacon and layer it on top of the sliced bread. Before adding items to the bread, make sure to coat it with warm butter. While the eggs are still frying, layer the cheese right on top so it melts right in. Next, add a few dashes of hot sauce but "not too much" at the advice of Harley because it's important to taste the cheese. Take the heaping pile of goodness and place it on top of the bacon layered base before adding the finishing layer of buttered bread.
