More about BE-RO

BE-RO Self-Raising Flour is made from blends of finest wheat flour, thoroughly mixed by special machinery, in correct proportion with the best and purest raising agents.

Stocks in Grocers’ shops are maintained in fresh and perfect condition by very frequent and regular deliveries from our two Factories and eleven Depots.

BE-RO is the ideal Self-Raising Flour for the slow amateur, and even for the expert it is better and safer to use, because there is no risk of cakes being spoiled if you are “called away” between the mixing and putting into the oven.

Be-Ro is supplied in 1-lb., 3-lb. and 6-lb. Bags

Good Home Baking is something to be proud of

THE woman who can cook well and bake well has every reason and every right to be proud of her cooking.

In ninety-nine cases out of a hundred she has a happy home, because good cooking means good food, and good food means good health.

There’s no more pleasing sight than that of a happy family around a well-stocked tea-table, all enjoying their food; and the mother who is responsible for the good cooking, and who has prepared it with her own hands, has every right to survey the results of her culinary skill with pride and satisfaction.

It’s more economical, too!

The tasty Scones and Cakes that you make at home, the appetising Pies and Tarts, all cost much less than those you buy ready made. You know what’s in them, too; you know they are good and pure; that they have been made under clean, hygienic conditions . . . . and your doctor will tell you that good, wholesome food is worth more than all the medicine in the world, especially for hungry, growing children.

That’s why it pays to bake at home!
A few useful Hints about Gas Ovens

WHEN about to use a GAS OVEN, first light the Match or Taper, and then turn on the Gas and ignite it. The flame should be blue, and about one and a quarter inches long. The oven door should be left slightly open for the first three minutes, to avoid steaming, and then kept shut for 15 minutes. This will thoroughly heat the Oven, and it is then ready for baking. WHEN PUTTING IN THE CAKES TURN THE GAS DOWN, varying according to the kind of cakes.

SCONES, AND "RUFF PUFF" PASTRY, NEED A HOT OVEN, and, in a Gas Oven, are usually placed near the top, immediately under the browning shelf, as this part is hottest. A frame of from half to three-quarters of an inch should be long enough.

SMALL CAKES, BUNS, and SHORT PASTRY require a fairly hot oven, but not quite so hot as for Scones and "Ruff Puff" Pastry.

MEDIUM-SIZED CAKES (such as Sandwich Cake) require a MODERATE OVEN, and should be placed on the middle grid shelf, with a flame only one-third of an inch long.

LARGE CAKES should also be placed on the middle grid shelf, and given a moderate heat for about half the time, with a slow heat to finish (the gas being turned as low as possible).

When baking large Cakes, it is best not to open the oven door for at least half an hour after putting the Cakes in. ALWAYS OPEN AND CLOSE THE OVEN DOOR GENTLY. Slamming the door may make a Cake fall in the centre.

Baking Sheets and Cake Tins should be kept about one-and-a-half inches away from the sides of the Oven, to allow hot air to circulate freely.

Never put water in the drip tin at the bottom of a gas stove. It causes steaming, and will spoil the cooking.

The solid shelf in a gas oven is not for placing things on. It is only supplied for sliding above the articles being cooked, in order to brown the tops, by throwing the heat down.

More Useful Hints

WHEN USING AN ORDINARY COAL OVEN make up the fire before hand with the damper out. When at the proper heat, partly close the damper and build up the fire with coal. This will give a steady heat which can be increased, if need be, by pulling the damper out.

Faults in cakes are often caused by baking too quickly or too slowly. IF YOUR OVEN IS AT THE CORRECT HEAT, the times given in this recipe book will give excellent results.

With a little practice, correct heats can be judged by putting one's hand in the oven.

REMEMBER, THERE IS NO NEED TO WORRY ABOUT GETTING BE-RO CAKES INTO THE OVEN QUICKLY AFTER THEY ARE MIXED.

Three Useful Hints

First look to your oven.

Then slightly warm and grease your Baking Sheet or Cake Tin.

Have everything weighed or measured before beginning to mix.

We cannot emphasise too strongly how much safer it is to weigh dry ingredients, as we have proved by test it is impossible to accurately measure equivalent weights.

See Hints on

CAKES

Hints for making Cakes

Use a wooden spoon and a warm bowl to cream the Margarine and Sugar. Care must be taken, however, that the bowl is not hot, for on no account must the Margarine be allowed to "oil".

Always break eggs separately into a cup. If one of them happens to be bad, this will prevent it spoiling the others.

Dip your spoon in Milk before spooning the batter or mixture for small Cakes. This will prevent the mixture sticking to the spoon.

Fruit, if washed, should be well dried before the Cake is mixed. Damp fruit causes heaviness.

To test if a large Cake is sufficiently cooked, pierce the centre of the cake with a skewer (or thin steel knitting needle). If the skewer comes out clean, the cake is ready. If it comes out pasty, the cake is underdone.

Always leave Cakes a short while in the tin before turning them out, just long enough to "set" but not to cool. Then take them out and put to cool on a wire cooling-tray.

Cakes keep best in an air-tight tin, but they must be quite cooled first.

Read carefully our Oven Hints on pages 4 and 5.

NEVER USE BAKING POWDER WITH BE-RO.

Three Useful Hints

First look to your oven.

Then slightly warm and grease your Baking Sheet or Cake Tin.

Have everything weighed or measured before beginning to mix.

We cannot emphasise too strongly how much safer it is to weigh dry ingredients, as we have proved by test, it is impossible to measure accurately equivalent weights.
Various Cakes from one Foundation Recipe

THIS BE-RO idea simplifies Home Baking and makes it easier for every woman who "keeps house" to bake her own Cakes.

By creating a Foundation Recipe (BE-RO Sandwich Cake, as below), we have made it possible for you to make several different kinds of Cake by the mere addition of ingredients or flavourings to suit the type of Cake you prefer.

The recipes for Orange Cake, Chocolate Cake, Coconut Cake, Walnut Cake, Almond Cake, Queen Cakes and BE-RO Fancies (on pages 27, 28, and 29), are all based on this one Sandwich Cake Recipe, and form quite a wide variety of dainty Cakes, which can be turned out with little or no difficulty, once you know how to make the BE-RO Sandwich Cake.

BE-RO Sandwich Cake

—the Foundation Recipe

4-ozs. BE-RO FLOUR.
One EGG, beaten with
2-ozs. SUGAR.
Two Tablespoonfuls
2-ozs. MARGARINE.
MILK.

Beat the Sugar and Margarine to a cream, in a warm basin (not hot), then stir in the Flour and beaten Egg-and-Milk alternately; a little at a time, and MIX THOROUGHLY. The mixture should be soft.

Pour into a well-greased 7-inch Sandwich Cake tin, making the top level with a knife, and BAKE IN A MODERATE OVEN about 30 minutes.

When cool, cut through the centre and spread with Raspberry jam, or any other filling.

Fresh Delicious Flavours

BE-RO Orange Cake

Make the same Mixture as for a BE-RO Sandwich Cake (page 26), without Milk, using instead the grated RIND AND JUICE OF ONE ORANGE (but adding the juice last). MIX THOROUGHLY. Use a well-greased 7-inch Sandwich Cake tin, and BAKE IN A MODERATE OVEN about 30 minutes.

When cool, cover with icing.

ORANGE ICING.—Mix two tablespoonfuls of Icing Sugar with three teaspoonfuls of Orange juice, and work to a smooth paste. When Cake is cool, spread with icing and decorate with the grated rind of an orange (dried thoroughly in the oven, powdered and sprinkled over the icing). Desicated Coconut, previously browned in the oven, makes an alternative decoration.

BE-RO Chocolate Cake

Make the same Mixture as for a BE-RO Sandwich Cake (page 26), with the addition of TWO TEASPOONFULS OF COCOA, mixed in the Flour, and a few drops of Vanilla Essence. Make the mixture soft.

CHOCOLATE ICING. Mix two tablespoonfuls of Icing Sugar with two teaspoonfuls of Cocoa and work to a smooth paste with Cold Water and a few drops of Vanilla Essence. When Cake is cool, spread with icing, and decorate with skelled Walnuts.

1-lb. GROUND ALMONDS
12-oz. ICING SUGAR
6-oz. ROSE WATER
12-oz. CASTER SUGAR
Mix Almonds, Sugar, and Rose Water to a stiff dough with the Egg Yolks, if top of Cake is uneven, straighten it by cutting a slice off, or by levelling it with pieces of the icing. Brush over with beaten Egg to prevent the icing falling off when the cake is cut.

SECOND LAYER ... ROYAL ICING
1-lb. ICING SUGAR
Whites of 4 EGGS
LEMON JUICE
8-oz. CARROTS (grated)
The grated RIND and JUICE of a LEMON

DECORATION
Stiffen the Royal Icing until it will stand up in points when beaten with a knife. Press this through forcing tubes in different shapes as required on the cake.

A simpler method is to decorate with preserved Fruits, Holly Leaves, Christmas Decorations, etc. These may be stuck on by means of a little Royal Icing.

An attractive cake may be made by tining the Royal Icing with culinary colours sold for the purpose, and by using a slightly deeper shade for the forcing.

**BE-RO makes delightfully light Puddings, whether steamed or baked**
**BE-RO Pancakes**

3-ozs. BE-RO FLOUR. 
Quarter Teaspoonful of SALT.

One EGG, and half pint of MILK.
2-ozs. LARD or FAT.

USE A SMALL FRYING-PAN, AND MAKE PANCAKES VERY THIN. Mix Flour and Salt in a basin. Make a hollow in the centre and drop in the Egg (previously broken into a cup). Stir with a wooden spoon and add the Milk gradually until the Flour is all worked in. (You will still have some Milk left.) Beat well and add the remaining Milk. For each Pancake, melt about a teaspoonful of the Fat, in the pan, on a fairly brisk fire. When it commences to smoke, stir the batter and spoon in two teaspoonfuls. When brown underneath, turn, and cook the other side. When done, turn it out on to a sugared paper. Sprinkle with Sugar and roll it up. Place on a hot dish and SERVE IMMEDIATELY with SUGAR or STRUP, LEMON or ORANGE.

**BE-RO Puffs (with Bacon for Breakfast)**

Mix two or three tablespoonfuls BE-RO FLOUR and a pinch of Salt. Add Water, and mix into a stiff Batter. Drop by teaspoonfuls into a frying-pan containing boiling Bacon fat. When brown, turn; when cooked, serve with breakfast Bacon.

**BE-RO Batter (for Fish, etc.)**

Simply mix BE-RO FLOUR with a little Salt (according to the quantity required), and make a stiff batter with water. Dipping TRIPES, FISH, or SLICED POTATOES in this Batter before frying makes a nice change in method of cooking.

**BE-RO Yorkshire Pudding**

MAKE THE SAME BATTER AS FOR BE-RO PANCAKES. Melt two tablespoonfuls of Dripping (preferably from the Meat that the pudding will be served with) in a Yorkshire pudding tin, making it run all over the inside. Pour in all the batter and bake in a HOT OVEN about half an hour. When done, cut into squares and serve with Meat.

Then add a teaspoonful of melted Margarine and the sliced Bananas rings, and stir. Drop by teaspoonfuls into a frying-pan containing boiling lard. When browned, turn and cook other side. Young BE-RO Cooks demonstrating 
BE-RO Home Baking

These pictures show the BE-RO demonstration kitchen on our Exhibition stand, which has been seen by many thousands of North Country and Midland Housewives.

The girls, whose ages range from 14 years upwards, have had no professional tuition, and the excellent results obtained by them, with never a failure, prove how simple a matter it is to teach your own daughter BE-RO Cookery at home.
How to Buy BE-RO Flour

BE-RO Self-Raising Flour is packed in strong paper bags, full weight without the paper, by means of automatic electric weighing and filling machines. In the mixing, weighing and filling it is untouched by hand, and comes to you pure and fresh. There are three sizes, one-pound, three-pound and six-pound. Beginners generally start by using the one-pound size, and wisely so; but when they find out the merits of BE-RO and what pleasing results they get from its use, they find the three-pound and six-pound bags more economical. If you have not yet used BE-RO, start using it today. If you are already a regular user, may we ask the favour of a recommendation to your friends?

BE-RO has long been on sale in practically every Grocer's shop in the North of England and South of Scotland. It is now being rapidly taken up by Grocers in the Midlands, and finding its way into many other parts of the country.
